

DANINDU SAJJANA WIJESINGHE

UI/UX Designer | Social Media Marketer

danindu.wijesinghe03@gmail.com

+94 70 241 2239 | Kandana, Sri Lanka

PROFESSIONAL SUMMARY

Aspiring UI/UX Designer and Front-End Developer with a strong interest in Social Media Marketing, currently completing a 3rd-year IT undergraduate degree at SLIIT. Skilled in Figma, Canva, HTML, CSS, and modern web frameworks, with hands-on project experience in full-stack development and user-centered design. Passionate about building intuitive digital experiences and continuous learning.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

Nov 2023 – Present

BSc (Hons) in Information Technology – Specializing in Information Technology | Malabe, Sri Lanka

Focused on software development, UI/UX design, and practical application of modern digital technologies. Active in extracurricular activities including carrom.

National Institute of Business Management (NIBM)

Mar 2023 – Jul 2023

Certificate Course in Web Design and Development | Colombo, Sri Lanka

Gained hands-on experience in HTML, CSS, PHP, and MySQL to build and structure dynamic websites.

British Council, Colombo Teaching Centre

Jul 2020 – Aug 2020

CMB Upper Secondary 4 – English Language and Literature (General) | Colombo, Sri Lanka

Strengthened core language skills in listening, reading, speaking, and writing through interactive coursework.

De Mazenod College, Kandana

Jan 2009 – Dec 2022

GCE Ordinary Level & GCE Advanced Level (Arts Stream) | Kandana, Sri Lanka

Extra-curricular Activities:

- Member of the college Swimming Team (2017–2020)
- Member of the Sinhala Literary Association (2015)

PROJECTS

1. CareerQuest – Career Exploration Web Application (UI/UX Design Project)

Tech Stack: Figma, User Interface Design, User Experience Design, ChatGPT

- Conducted user research and defined user requirements for a career guidance platform.
- Created user flows and high-fidelity UI designs in Figma.
- Designed features for career exploration, skill assessment, job discovery, and learning resources.
- Applied UI/UX principles including visual hierarchy, consistency, accessibility, and responsive design.
- Developed interactive prototypes to demonstrate user journeys and key platform functionalities.
- Focused on creating an intuitive user experience that helps users discover suitable career paths and improve career readiness.

2. UniSync – Smart Campus Assistant

Tech Stack: React.js, Node.js, Express.js, MongoDB, GitHub

- Developed the Event Management and Social Matching Module for UniSync, a smart campus platform enhancing student life through study support, skill development, social networking, and campus events.
- Designed features for campus event discovery and student social matching
- Implemented a personalized calendar for academic and extracurricular activities

3. Smart Campus Operations Hub – SpringBoot Project

Tech Stack: Spring Boot, React.js, MongoDB, GitHub

- Contributed to a comprehensive university platform for facility management, resource booking, and incident handling. Responsible for the Maintenance & Incident Ticketing Module.
- Built ticket submission system with fields for resource, category, description, priority, and attachments
- Enforced workflow states: OPEN → IN_PROGRESS → RESOLVED → CLOSED / REJECTED
- Implemented conflict detection, workload checks, and role-based access control for users, technicians, and admins

4. TechWizard – Technology News & Device Information App

Tech Stack: Figma (UI/UX Design)

- Designed a mobile application providing users with the latest technology news and detailed device information. Inspired by platforms like GSMArena.
- Applied UI/UX design principles including user-centered design, information architecture, and prototyping
- Created interactive prototypes focused on a clean, intuitive, and user-friendly interface

5. Wellness Tracker – Holistic Health & Wellness Mobile Application

Technologies: Kotlin, Android Jetpack, ViewModel, LiveData, Room Database, UI/UX Design

- Developed a mobile wellness application using Kotlin and Android Jetpack components to help users track and improve daily health habits.
- Designed and implemented features for monitoring exercise, sleep, hydration, diet, and mood, providing a comprehensive approach to personal wellness.
- Utilized ViewModel and LiveData to manage application data efficiently and ensure lifecycle-aware UI updates.
- Integrated Room Database for secure offline storage and retrieval of user wellness data.
- Created habit tracking, mood journaling, and reminder functionalities to encourage consistent healthy routines.
- Developed progress tracking and analytics features to help users visualize their wellness journey and achievements.
- Applied UI/UX design principles to create an intuitive, accessible, and user-friendly mobile experience.
- Focused on clean architecture, maintainable code structure, and responsive interface design throughout the development process.

6. NutriFit – Fitness Tracker Mobile Application

Technologies: Kotlin, UI/UX Design

- Developed a fitness tracking mobile application using Kotlin to support users in achieving and maintaining a healthy lifestyle.
- Designed features for tracking daily calorie consumption, water intake, and workout activities in a centralized platform.
- Implemented personalized fitness plan generation based on user information such as weight, height, and BMI.
- Created an intuitive user interface that allows users to monitor health metrics and fitness progress efficiently.
- Applied UI/UX design principles to ensure a clean, engaging, and user-friendly experience.
- Developed data input and tracking functionalities to help users build and maintain consistent fitness habits.
- Focused on providing personalized recommendations to improve user motivation and wellness outcomes.
- Designed responsive mobile screens and user flows to enhance accessibility and ease of use.

7. Ambasiritha – Packaging Design

Tools: Canva, Graphic Design

- Designed a complete brand identity and packaging system for Ambasiritha, an organic spice brand.
- Created a logo using natural, organic-inspired elements to reflect purity and authenticity.
- Developed clean and readable packaging labels to improve brand trust and product appeal.
- Applied basic branding and layout principles to maintain a consistent and natural visual style.
- Ensured visual consistency across multiple spice product variants for a unified brand identity.
- Selected appropriate color palettes and typography to communicate a traditional, earthy feel.
- Focused on improving shelf visibility and customer attraction through simple but effective design choices.
- Produced final packaging mockups suitable for real-world product presentation and branding use.

8. BeeGreen Organic Farm – Bottle Label Design

Tools: Canva, Graphic Design

- Designed a product label for coconut oil packaging for BeeGreen Organic Farm, an organic and natural food brand.
- Created a clean, minimal label design that reflects purity, freshness, and an eco-friendly identity.
- Used nature-inspired visual elements such as greenery and farm themes to communicate authenticity and trust.
- Selected simple typography and natural color tones to improve readability and maintain a premium organic feel.
- Ensured the label aligns with brand values of sustainability and health-conscious living.
- Developed packaging visuals suitable for real-world product presentation and retail use.
- Focused on creating a visually appealing yet functional design that enhances product shelf presence.

SKILLS

Technical Skills

- UI/UX Design: Prototyping, wireframing, visual design, user-centered design
- Front-End Development: HTML, CSS, React.js
- Back-End & Databases: Node.js, Express.js, Spring Boot, PHP, MongoDB, MySQL
- Mobile Development: Kotlin
- Tools & Platforms: Figma, Canva, GitHub, MERN Stack
- Digital Marketing: Social media strategy and content creation

Soft Skills

- Communication | Teamwork | Problem-solving | Time Management | Creativity

Languages

- English (Proficient) | Sinhala (Native)

CERTIFICATIONS

MongoDB Data Modeling Path

MongoDB | Issued May 2025 | Credential ID: MDB0xufl497ow

HOBBIES & INTERESTS

- Filmmaking
- Culinary Arts
